

Vita-Kids™

Vita-Kids™ is a great tasting, natural grape-flavoured chewable vitamin-mineral-trace element supplement formulated for children ages one to eight. The unique teddy bear shaped Vita-Kids™ chewable tablets provide 27 vitamins, minerals and trace elements in bioavailable forms and nutritionally meaningful amounts.

Vita-Kids™ is more than just another children's multivitamin-mineral supplement. Research shows that the intake of many vitamins above RDA levels may have significant positive effects on the structure and function of growing bodies.

Compared to major brands of children's chewable multivitamins, the convenient chewable tablets of Vita-Kids™ provide several times the levels of the important antioxidant vitamins C and E. Vita-Kids™ also delivers significantly higher levels of most B-vitamins than brand-name vitamins, and provides easily absorbable calcium and magnesium, as well as a full spectrum of bioavailable trace elements. Vitamin D is also added to help maintain bone health. In fact, Vita-Kids™ is one of the most complete children's chewable multivitamin/mineral formulas on the market. It provides essential vitamins and minerals that help maintain optimal eyesight, skin, energy metabolism, bones and teeth, and proper muscle, immune and thyroid gland function. Vita-Kids™ uses only the purest, most hypoallergenic ingredients and contains no artificial colours, flavours or preservatives.

Indications

- Children's health

Suggested Usage: Children (1 to 8 years): Take 1 tablet with food or as directed by a healthcare practitioner. Adolescents (9 to 18 years): Take 1 tablet twice daily with food or as directed by a healthcare practitioner. Take a few hours before or after taking other medications.
